DOCTOR-PATIENT CONFIDENTIALITY: VOLUME ONE (THE CONFIDENTIAL SERIES #1) (NEW ADULT CONTEMPORARY AND EROTIC ROMANCE) BY EME STRIFE PDF

FREE FOR A LIMITED TIME ONLY

Two very different people.
One scandalous proposition.
Endless possibilities...

I can't believe how different things are now; how complicated my life has become in such a short amount of time.

It was never supposed to be like this.

He's off limits.

He's always been off limits.

I keep telling myself that; that being here with him is not supposed to feel this good.

God, he's not supposed to feel this good.

I wonder what my life would have been like now if I had gone to the clinic on a different day, or if I'd just insisted on going with the physician I was initially referred to.

Never in my life would I have thought that in the events that followed the beginning of a regular school week, a random checkup would end up spawning a highly angst-filled, incredibly confusing, and quickly-unfolding mess.

Feast your eyeballs and fall absolutely head over heels in love with Eme Strife's new sizzling, intriguing, incredibly sexy, and captivating New Adult contemporary romance series. Each installment will keep you strapped to the very edge of your seat, constantly guessing, and take you on one hell of an emotional roller-coaster. You'll never think of the words Doctor-Patient Confidentiality in the same way ever again.

This story unfolds over several volumes. IT IS NOT A STANDALONE. This is the first book.

Rated 18+

This series contains mature and adult content (nudity, graphic sex, and strong language).

Because of its explicit nature, it is intended for mature audiences only. Reader discretion is advised.

4 stars: story with possibility

By Cyndi Becker

HOLY Smokes - what an opening! I was offered and gifted a copy of this novella from the author. The synopsis looked interesting and HOT and I can promise you it lives up to it - if only initially through the prologue - the HOT part). Volume one gives nothing away, nothing past the prologue gives us a glimpse of the good Doctor and my interest were peaked.

Volume one merely sets up the life of our central character, Ramona "Roni" Gallo. The entire story is in first person so we get a strong sense of who she is - in both thoughts and dialogue. A musician and college student, she comes through as isolated and lonely, battling grief and trying to keep her head above water. By the end of volume one, we have a sense of what comes next (based entirely on the prologue, and where that falls in in the twelve volume series, there's no telling. I gotta think that a lot will unravel in her life and I know we'll get to know Roni much better. I'm not certain I'll like her. At this point, I feel sorry for her and, yes, based on the prologue, I want to see how we get there.

Good writing, great set up, and a character that I THINK I will learn to love - just a bit wary of the relationship status of the doctor (and how Roni justifies her actions in this) so that may kill it for me. Only one way to find out...

An intriguing start!

By Mandy

I received a copy of this book from LibraryThing's Members Giveaway program in exchange for an honest and unbiased review.

I didn't realize what a short prequel this was going to be but it ended on such a cliffhanger that I probably would have gone ahead and bought the second chapter, if only to find out exactly what Dr. Frost's backstory with Ramona is. I really enjoyed the beginning of the book; Ramona's inner monologue during the prologue is raw and blunt, almost an exact contrast to the reserved and emotionally reserved Ramona we are introduced to in the first chapter and I loved that. We know the beginning and we know where it ends up, but how they got there is the mystery and I liked that. There was a lot of character setup in this prequel, which I think is a good setup because with a lot of prequels there isn't much time to properly introduce all of the characters and give the reader a feel for who they are. I didn't learn quite as much about Ramona as I would have liked, but I know that in order for her to go from what she was in that first chapter to who she was in the very first scene of the book, something very drastic had to have taken place, and that's what I'm interested in finding out. I thought the writing flowed very well and I'm looking forward to the next book in this series.

Note: Copy provided in behalf of the author for an honest review ***** 5 INTRIGUING STARS!!!

By Lyka Dalumpines

Note: Copy provided in behalf of the author for an honest review

The first volume of this series deserves 5 STARS for its interesting characters, intriguing plotline, almost flawless storytelling, and promises of steaming hot scenes to come...

Ramona "Roni" Gallo is a 24-year-old music student who is in a desperate financial situation. Aside from her grandmother (who lives miles away) and best friend, she basically has no one to depend on—money matters or not. It doesn't help that she has been worrying for an upcoming group performance or that she has been feeling ill for the past month and that being sick costs a lot. As if all these troubles aren't worth worrying enough, her past she can't deal with seems to resurface. Part of this past leaves her with the fear of falling in love. She used to have no difficulty with avoiding commitments and ignoring her attraction to the opposite sex. Then, there was a last minute change of physician...and then there was Doctor Dexter Frost...

"My greatest fear isn't dying broke or starving to death or being alone for the rest of my life. Not even the thought of having maggots crawling out of my nose makes my system shut down like the thought of being deeply in love with someone."

I read this knowing that it is the first volume of a series and that it ends in a cliffhanger. I usually avoid reading books ending in cliffhangers unless I have secured the second book. I have made an exception with this one, obviously. Even if I am now dying with excitement to get a hold of that next volume, I can't help but gush! This book will totally intrigue you and keep you so involved you wouldn't want it to end!

That prologue is just awesome! Everyone is talking about Epic Epilogues (I include myself here) but what about Panty-melting Prologues??? The prologue is hot and all, but by the way that it was written, the author was clearly aiming to capture our interest and devour every page.

Short reads usually lack a well-paced story progression, which is vital in setting the mood of the narrative, and is linked with character development. I love that this one doesn't sacrifice character development in order to stick with the intended length. I get to know a lot about Roni's character by the end of this book. I decided early on in my reading that she's definitely going to make it to my not-so-long list of favorite heroines. I still have questions about her, sure, but those questions just get me more and more curious, hooked, and intrigued. The characterization is just so powerful that even the secondary characters capture my interest. I crave to learn more about them in the coming books. My "literary instinct" rarely fails me so I believe this series is going to have endearing secondary characters as well. Although Doctor Frost's character is only introduced by the last chapter, his literary presence is intense.

All in all, what makes this a great, short read is the good writing (how I love the word choice!) and characterization. If this first volume is just a taste of what's yet to come, then I would definitely read the next volume!

"I look up to meet his eyes, and my breath catches in my throat as the iciest, coldest pair of eyes settle on mine. They're beyond intimidating, and they seem to pierce through my very soul with their frosty, pale blue color. They give off this strangely intense vibe that I've never experienced before, and I can't seem to look away from them. They're alluring and enticing and frightening all at once. It's almost like looking into the eyes of a beautiful serial killer. You know it will be the end of you, but can't for the look of you look away."

I highly recommend this book to all the true-blooded New Adult lovers out there! As long as you can put up with a cliffhanger, this one's for you.
