The secret life of America's Bible Belt: The swinging sex lives of everyday Americans, now made affordable! Richard Prince discovered Naomi Harris in TASCHEN's The New Erotic Photography and was so intrigued by her photos of American swingers that he tracked down the 34-year-old New Yorker, determined to make her his protégé. When he discovered TASCHEN had signed her to do America Swings he asked to do an interview with her, where he reveals part of what makes her work so unique: "When I look at one of your swinger photos what I'm looking at is mostly you 'outside' the picture looking at what you're photographing ... half-naked, all naked, taking these photos of next-door neighbors having sex ...".

He refers to Harris's secret for winning the confidence of her subjects: to penetrate the world of middle class mate-swapping she had to join them, often working in just shoes and a tool belt to hold her camera gear. Her extreme technique worked so well that in 48 months she was able to photograph 38 parties, crisscrossing the country from Mahwah, New Jersey, to Pleasanton, California; from Big Lake, Minnesota, to Washington, Texas.

Her subjects are not the usual perfected androids who populate contemporary erotica, but ordinary people with extraordinary sex lives, including multi-orgasmic schoolteachers, polyamorous nurses, bi-sexual senior citizens and the Mandingos, a group of African-American men who service white wives. This book explores a rarely-seen side of sex in America.

Standard hardcover edition! The original art edition is now available in a size and price affordable by all!

Swing Reality

By Amazon Customer

This is the reality of swinging. Most swingers are thought to be young and beautiful. The people in these photographs are older and mostly average looking. They are your friends and neighbors (yes, even if you go to church).

I thought the book was realistic and true to life. If you want to look at beautiful people having sex try porn. If you want to know what swinging is, then this is the book.

It's an interesting book, but feels to me as ...

By Alex Harper

It's an interesting book, but feels to me as though the author was trying to portray the subject matter as seedier and a little grotesque. Is though the white-trashiest of imagery shows through most prominently. Other than that, an interesting study of the swing lifestyle. Not for the faint of heart! :-)

A fine pick for libraries not avoiding graphic sexual nudity

By Midwest Book Review

America Swings: Photographs by Naomi Harris is recommended for a range of collections, from photography and social history libraries to those interested in sexuality. Graphic nude images make this a specialty acquisition but the artistry of Naomi Harris' choices provide as much arts detail as social history, making this a fine pick for libraries not avoiding graphic sexual nudity.
