Review

'Failing to reach objectives is a major concern in project management. According to the authors failed projects are often the consequences or irrational choices made due to mental errors. To ensure the success of uncertain or smaller projects, the effort in management should shift from policing to choice engineering. This excellent book gives the tools needed to achieve this goal. Written in a natural language, using simple facts, personal attitudes, relevant cases, fun projects and well known films it allows an enjoyable and entertaining read while highly thoughtful.' --Marta Fernández-Diego, Universitat Politècnica de València, Spain

'If you have followed all of the technical rules for program management; but are still having difficulties with your project execution, then you probably need to consider the human judgment side that can dramatically influence your plan. Project Think! drills into the human aspects of program management using explicit real life examples that any reader can relate to.' --Al Rusnak, Engineering Program Manager, ASIC Development, SanDisk Corp

PROJECTTHINK: WHY GOOD MANAGERS MAKE POOR PROJECT CHOICES BY LEV VIRINE, MICHAEL TRUMPER PDF

Projects are constantly beset by problems, often caused by seemingly small mistakes which collectively lead to larger issues. Why do project managers and teams appear to repeat the same mistakes? Can they make better choices without introducing complex decision analysis processes? How can they make better estimates? Project management is the art and science of human interactions. ProjectThink identifies and explains the paths of those intentional and unintentional actions that lead to trouble. It provides advice and guidance in analysing information and risk and explains how 'choice-engineering' can facilitate decision-making and encourage everyone involved in a project to follow the right procedures and work collaboratively.
