Great college book for psych 151

By D'Books

It is definately the way to go when looking for used college books online...Amazon.com is awesome in that it gives students like me the opportunity to purchase needed textbooks at a very reasonable price.

I looked for this same book at my college book store and was told that the "new" ones sell for \$200, but she had only 2 used ones left and they were \$99 each!! Eh gads, not cost effective for a struggling college student!

I will continue to use Amazon.com for all my school books, and encourage the reader of this review to shop around and compare...I bet you'll come back to Amazon.com for YOUR books!

A normal Psych Book

By Jacob A. Mercurio

It's no better than the next book, but it's not a chore reading it either. Get the 8th edition and save a lot of money. As a psych major I still read all the required chapters and found bits and pieces of new information.
