From NEW YORK TIMES and USA Today bestselling author Colleen Gleason, the long-awaited spin-off of the international bestselling Gardella Vampire Chronicles.

Amid the glitzy age of Jazz, when gangsters and bootleggers control the cities, there lies another, more insidious threat...the undead.

Macey Gardella is a typical young woman of the Roaring Twenties: she works a job, has her own flat, and loves to dance the Charleston. But when a mysterious man named Sebastian Vioget informs her she belongs to a family of vampire hunters, Macey is stunned and disbelieving.

Yet, strange and frightening things begin to happen, and when Macey comes face-to-face with one of the fanged creatures, she has no choice but to believe Sebastian. And when she learns his own soul depends on her willingness to carry forth the family legacy and hunt the undead, Macey capitulates and joins the fight.

As she begins to learn about her new calling, Macey encounters a handsome newspaper reporter known as Grady--who seems to know more about vampires than he should. And when he begins to ask too many questions, she has to juggle her strong attraction to him with the need for secrecy.

Slipping into speakeasies and sampling bootlegged whiskeys, dodging gangster gunfire and trying to keep her nosy landlady from finding the stakes in her flat, Macey Gardella must navigate through a world of stunning violence, passionate romance, and dark betrayal...

This book was amazing!

By Vanessa

I was expecting a lot of similarities to Victoria's story (the first Gardella series) and was pleasantly surprised when I realized that the whole story was different. The only similarities are the amazing characters. Man, it is like you want to get to know them and be their friend.

The book begins with Sebastian (can we ask for more?) clarifying who the bad guys are and that the protagonist is in danger.

Just like in the first Gardella series, it begins with the dreams. Mmm! And Macey does not know what to do with that. She has no family around, no aunt to guide her...

I liked very much that once she finds out about the world of vampires, she takes her time to think about it. She does not just take the easy way out, although she wants to. She analyses it. She is no fool. And even before accepting the legacy, that Macey Gardella kicks a\$\$! She is strong, independent and motivated. I liked her a lot.

Now, about the guy, he was hot. Macey's and Grady's chemistry is soooo cool!

Love scene was beautiful, sexy and detailed. But, even though, this character was good, I could not connect with him. Maybe because I know all other male characters from previous books and he is the "new guy in town"....

And, this was a surprise... Chas is there! How? Why? There is no explanation about that in this book (damn, when is the next one ready?). But let me tell you, I loved Vampire Narcise. That book was the best from that trilogy. And I was devastated about all that happened with Chas. Good to see he is here. And, hopefully, he can have a HEA this time. PLEASE!!! During the whole book, I wanted to save Chas. He does not show the greatest personality, he pushes people away, he is tormented and cold. He reminds me a bit of Pesaro. But could anyone top Max Pesaro? Hottest cold guy ever!

For the ones, who have read the first series, you will find a more mature, older and responsible Sebastian. He is still adorable, a bit playful and sexy-beyond-words but he also shows a more serious side, a side that has evolved after living as a vampire-Venator for one century. He suffers and I felt his pain.

There are other things that also will need explanation in the future, like this book about vampires which was written by G. S. He was a bad guy in the old series. I wonder why he wrote it. Also, I wonder if we are going to have a love triangle. In the first Gardella, the love triangle began in book 3, but it was easy to see it coming already in book 1. But now, I do not see any love triangle possibilities.

Great twist near the end. I didn't see that one coming. What is Macey going to do now? How is she going to get out of that one? I am really looking forward the next book!!!!!!

Don't have to be a Gardella fan to love it.

By YooperGirl

I happen to be a Gardella fan from the first set of books, but you don't have to be to enjoy this one, set in a different time, with different characters. (except for the returning ones - and oh, it's fun to see them again)

Can't wait for more of Macey's story!

Great time period for Gardella the next generation (actually next-next-next generation)

By melindeeloo

Gleason does a fast forward to the roaring 20's for her new Gardella Chronicles spin off picking up the fight in prohibition era Chicago as Macy Denton, the great-great-great granddaughter of Victoria, has her eyes opened to the existence of vampires and receives her "Call" to become a Venator.

Gleason has written this story so that it isn't necessary to have read the five books of the previous series, but I like being in the 'know' and like getting a chance to see Sebastian Vioget again. As to the next generation of Gardellas, Macey is a likable, strong and independent woman of her time and shows promise in the leading lady department. I also really like her love interest the intrepid 'Newshawk' Grady (and his lovely Irish lilt.) Although, considering the body count of those around Macey, I have to hope that he finds a way to avoid Victoria's husband's fate. Also interesting, but not terribly likable yet, is fellow venator Chas, who apparently has played a role in Gleason's Regency Dracula TrilogY vampire series (The Vampire Dimitri /Voss /Narcise) and brings some baggage from those books along with him - though we've only gotten a glimpse of his 'issues' so far and not the reason behind them.

So once this got rolling I liked the characters, and the time period - and the surprising role of Al Capone in the action. The story did end a bit abruptly but I am definitely looking for more of the adventures of Macey.
