An Excellent Adventure For Kids AND Parents!

By Laurie Cockerell

Oh, how our family loves this fabulous new adventure story about a boy, his dog, an adorable mouse, and a variety of endearing and frightening critters and creatures in the land of Kibblestan. A stranger in a strange land, Ellis offers assistance to the inhabitants as they take refuge and then plot a revolution against the tyrannical and evil Snotlins. The word choices and adventures are right down my eleven-year-old boy's alley - the author shows a real understanding of what makes kids tick - resulting in a story that even the most reluctant boy will devour within a few days. And as a parent, I was thrilled that the story also serves as a

parable about democracy and the great value of our founding documents and recording of history. It is rare to find such a well-written book, packed with action and adventure, that also serves as a teaching tool about our Constitution, Bill of Rights, and founding principles. You know you have discovered a wonderful book when you are battling your 5th grader over whose turn it is to read the book!

Great read for young boys

By Amazon Customer

With lots of adventure and creative creatures, this is a great read for young boys, say ages 8 and up.

Ellis gets in a fight with his dad, runs off, and ends up in a fantasy kingdom that needs his help. There are some interesting parallels to America's founding, but it's very well done and doesn't come across as didactic at all. Some of the story elements are a little on the gross side (the things they can do with unicorn spit...) but I think that will be a big hit with the targeted age group. All in all, a very entertaining read with a great message on the power of family, hard work, and freedom!

Kibblestan is an excellent read for children of this generation

By Don Fitton

Kibblestan is an excellent read for children of this generation. After noting the interest of my 10 year old grandson and his friends, (who are already contemplating the release of Ms Rand's next book), I decided to scan thru the book myself, and was very pleasantly surprised at what I found inside the intriguing cover. The book has a message relevant to our world situation of today, with discussion questions at the end. I would highly recommend this book for children in my grandson's age group.
