Review

"I've read at least a dozen Kindle books about improving book sales. Man, I wish that I would have found this book first. I would have saved myself \$50+.

I was expecting a book on improving book sales by spicing up the book cover, title, and description. There were some excellent tips for those topics, but there was so much more in addition to that.

It covers a wide array of free ways to improve sales - many were fresh ideas that I had not seen, several were updated approaches that I have seen discussed in other books.

Long story short - every author or publisher should own this title. A valuable resource."5-Star Review from Marshall Hanks

Your Kindle e-book is awesome. It should be selling more copies! As a matter of fact, it should be an Amazon bestseller, but it's not. Why are books that are inferior to yours raking cash, while your book collects digital dust on KDP?

The Complete E-Book Bestseller Formula for Authors provides many low cost (most are free), easy-to-complete tasks that can shoot your e-book up the popularity lists and earn your book bestseller status in a very short period of time.

If you are like most authors, you have already read the e-book improvement classics like Kindle Bestseller Secrets by Derek Doepker, 61 Ways to Sell More Non-fiction Kindle Books by Steve Scott, and Ebook Millionaire by James Calthorpe. Very Informative and Helpful

By C. Gonzalez

I have read many books looking for the information that Eric has provided here. I have to say, almost every single one of those "other" books are absolutely useless. They either do not provide enough information or the information that they do provide has been a complete waste of my time. However, Eric has put together a handy little guidebook that offers real information that has been proven to be highly effective. It's easy to read through, to understand, and to apply. Well done Eric. Thanks for sharing your invaluable knowledge with the rest of us! Pimp My Kindle Book is definitely a keeper to have on hand for my future titles! 21 of 23 people found the following review helpful.

nothing held back

By rabidreader

If I were the author of this book, I would be hesitant to provide all of the information provided in the book to potential competitors.

Honestly, I doubt that I would provide everything that I knew about improving books and sales. I know that most other books on this subject only give pieces and parts of the formula, not the whole thing. I know because I have most of them.

This book was well-written, and unlike most books in this genre, it's actually readable (enjoyable, even). There is even some humor weaved in to the helpful advice. I am confident that the information provided will directly yield significant book sale increases. Recommended. 2 of 2 people found the following review helpful.
