' Brilliant thriller' Publishers' Weekly

Everyone is looking for Geiger . . .

Cold, emotionless and with an innate ability to recognize lies, Geiger was the best of the best in the field of Information Retrieval. Until he was asked to break his only rule and do the unthinkable - to torture a child. Something broke in Geiger's neatly controlled mind, opening up a flood of terrible memories long kept at bay. And now Geiger is missing, presumed dead.

But, with no body ever found, there are a number of people invested in finding out the truth. One of those people is Harry Boddicker, Geiger's old handler and friend. Another is his bitter rival, Dalton, who is determined to find Geiger and extract a final confession from him, before carrying out his deadly revenge.

But no one has reckoned on Zanni Soames - a woman more dangerous than any of them could imagine, and hell-bent on winning the race to find Geiger first.

The new novel from Mark Allen Smith is a masterfully written thriller that will send you spinning from New York to Paris and back again, and into the darkest depths of the man known only as Geiger.

Very good read

By Michelle V.

This is the sequel to The Inquisitor which you should read before reading The Confessor. I have read it long ago and I would have been better off if I had read it closer to reading The Confessor. Never the less, I really enjoyed both books and I hope that MA Smith will continue with the story of Geiger's life. Geiger is a very complex man, he is mysterious, and engaging. We can feel the fragile man beneath the shell that he has

created in order to protect himself. A thoroughly enjoyable story.

This is one of the best books I've read in a while

By Velda Brotherton

This is one of the best books I've read in a while, though the writing is weak in places, the story is so exciting and suspenseful with tons of conflict that I was able to ignore the problems with the writing.
