The taboo diaries. Many say this book should be banned – that it is too dark, too twisted, but most of all, too taboo. Some go as far as to say that it will rip open sealed hermetic doorways in the minds of the reader and lead them down a seemingly never-ending winding path into a complex and seductive web of fantasy. They are right... It is a standard practice by authors to have as many people as possible read their work. However, this author forbids reading this book... Why? When he was writing these short stories, they proved so realistic that they haunted his sleep and waking hours. They threatened to corrupt the senses by invoking spirits of fornication, lust, and a deep-seated yearning for forbidden pleasures that caused strong sexual arousal and finally induced a drug-like trance in the reader if they dared partake in its fruits. If thy heart be strong as the Pillars of Hercules and thy curiosity as powerful as the mighty currents of the Amazon River, then enter. This is a collection of erotic tales taken from the diary of an English maiden that settled on the tiny island of Grenada in the Caribbean in the 1700s. There, among the backdrop of lush tropical vegetation, azure sparkling oceans, and cascading waterfalls, she discovers a dark secret that arouses in her a desire so strong that it threatens to consume her. Will she take that step that leads to a case of taboo? Then, quantum leap into the present with another story of island passion between a young man visiting his grandmother's old spice estate for carnival and a beautiful young woman whose love of mangoes and a chance encounter with the young man leads to "Mangoes and Orgasms." What about the confession of a seduction gone wrong... This story will leave some in tears, but you won't be able to tear yourself away until the very end.... Read "My Confession." These are just a few of the spellbinding, erotic tales that have made their way into the pages of this book, artfully narrated by a master storyteller. Turn the page at your own risk. You have been warned!

It's a good short read for persons who like graphic eroticas

By Tj

Very racy and graphic and very little is left up to the imagination of the reader. It's a good short read for persons who like graphic eroticas. However, after the main story there are a couple short ones that are not well connected to the original one. better connection or linkage was needed to show relevance.

A good read

By An avid reader

The artistic writing and historic perspectives was tasteful. I would have liked better linkages to the later chapters, if related to original characters.

It was a good read - it passed the time

By Sharon Williams

It was a good read - it passed the time.. not better than 50 shades as the ad says, so don't be misled by that..
