HIGHLY recommended while studying the Bible!

By Texas Girl

I use this all the time - I've been doing a study on Luke and this has helped me so much. I have HORRIBLE reading comprehension...and so I keep this right next to my Bible and my study notes, and go back to it for that easy to understand, outline style of the chapters. My brain thinks in quick short summaries - and so its made my time learning the Bible so much more well spent. Love it! (I wish I was one who could read and easily remember and understand chapters of Bible...but I am one who has to keep re-reading and reviewing.) This book has helped me TREMENDOUSLY!

entry level resource book for personal bible study

By Barbara

I like the layout of the book and the general overall comments/insights that it offers-with the exception of Genesis. I feel that the book totally glossed over Genesis and I was very disappointed in this. It is basically a entry level book that is for someone who is starting out with bible studies. It is certainly not for the serious or advanced scholar in any way, shape, or form. If you have a degree in theology or are a graduate from a bible college-this is not a book that you will glean much from-if anything.
